Ladies and Gentlemen,

the Academie d'Armes Internationale (AAI) stages the 7<sup>th</sup> international course on October 11-17, 2011 in Bad Karlshafen, Germany.

This course open to all persons who are interested in teaching fencing.

Fencing masters' academies in a number of countries offer national courses, which are recognized by the AAI. In the past persons from countries without academies had to join one of these academies to obtain an AAI diploma. It is now possible to get a qualification directly from the AAI by attending the international courses.

The curriculum of the AAI offers four levels:

- Animateur
- Moniteur
- Prévôt
- Maître d'Armes

Previous experience will be recognized if verified by appropriate records. During the course we will evaluate each participant's level and suggest the appropriate examination. Participants from countries with National Academies need their academy's approval in order to take examinations.

For further information please do not hesitate to contact me by e-mail, phone or fax.

Fencer's Salute -)-----

Mike Bunke
