

## **CFF Board meeting Nov 27-28 2010 Montreal**

- CFF board heard & saw the On The Podium (OTP) presentation. The material was presented by Gerard (HPD).
- Following this, the National Coaches reported on the results of the World Championships in Paris, France.
- Request for Proposals (RFPs) were made to find a new host for the CFF website and hosting of CFF membership data.
- The ED was unable to provide the financial reporting, as the coding was not completed. Information on income and expenses was not available. This issue has been deferred to the January meeting.
- Through the Athlete's Representative, national athletes have reported that they have issues with the newly adopted tournament format used in Gatineau, QC. The athletes are not unanimous, with some approving of the change and others disapproving. A concern was raised that National Coaches did not inform members of the HP program of the change or discuss its impact.
- Canada Games information and technical packages have to be completed soon. The technical package information needs to be sent to the Canada Games Council before the meeting in December. The provinces (PSOs) need to resolve a vote on the format of the events and have to come to agreement on format.
- The LTAD docs have not been posted to the CFF website despite numerous references to the document in other supporting information available through the CFF and FCC.
- A Flow Chart of communications has been completed and sent out to the CFF board.
- The FCC will now be able to post information on the FCC page without waiting on CFF approval.

*The FCC would like to encourage all coaches to comment on board meetings. Coaches are encouraged to ask questions to the board via [coachrep@fencing.ca](mailto:coachrep@fencing.ca) any time they wish.*
